COMFIDENTIAL

Homorable Carl Vincon, Chedrona Committee on Armed Services House of Engreentatives JUN 2 1 1982

DECI Compk.

Boar Mr. Chairman:

Obstrace, Special Substitution, Control Labelliquest Agency, Committee on Armed Survives, House of Representatives, we reported upon our review of solveted activities of Control Labelliquest Agency (CIA) for the purpose of Solvenicing whether the source of the excite of the Consert Accounting Office could be copacied wificiently to make responsibly comprehensive evaluations of CAA activities. In this letter we stated that ender the exciting security restrictions on our cade of CIA equivities we did not have endicious account to make comprehensive reviews on a continuism endicion that would be productive of evaluations belying to the Congress and that we planted by discontinue the work.

Your latter to us deted May 18, 1931, recommended than the audit not be discontinued at that then and occurringly no have continued our work at this despite the navere limitations placed upon us. Our further reviews, convince wholly to curiain makes in the Intelligence Coopenant, have not reconlect in any charge to our views that under existing security restrictions as our table of the activities we do not have cufficient access to eligatively accomplish any worthwhile audit objectives at the continuing basis. We are substituted this letter to that you may consider further our views on this matter at this time.

The limitations placed epon our codit activities at CLA are excess. Following several meetings with the Director, Control Intelligence Agency, and members of his staff, to exchanged correspondence in October 1958 which is common recognized that committee of CLA mould have to be limited to review succide the angel of sensitive security epostions on:

(1) Appenditures certified by the Directer velor Besties & of Control Intelligence Act of 1967, an emerded.

On file OMB release instructions apply.

(2) Certain contivities in support of confident of epotetical protected by the entherity to t. of birector under Gooden C.

To severed that to the entent expenditures were certified by the Director as being of a confidential, interactionary, or consistery asters, such expenditures were not object to severantice by the Constantial Accounting Office without the constantial operations subvected. The activities in support of the confidential operations subvected practically all of the administrative operations. Foretheless, we were willing to attempt to make an audit at the within the principles exacted by the Director in his latter of Caraber 16, 1959, but in our reply dated October 21, 1959, we stated that in the event it apparent after a trial period our reviews even limited to such an extent that we could not effectively and constructively accomplish any worthwhile objectives we would consider whether or not the codit should be continued.

During the ensuing 30 months we undertack to wake reviews of selected overt activities as occess to the wovert scrivities was not meda available to us. In this compaction, access to the activities of the Support Component in which we could be expected to be most effective in our reviews was significantly limited because covert and evert activities of this compensue are integrated. We ware too able to review sufficiently financial management, property reason ant, contracting, procurement, and similar activities for any elimetive apprecial of the administration of these activities. Our access for a raview of the internal audit program and suports was vary limited and we had no access whatever to the work of the Inspector General; therefore, we were not able to appunise the internal review eachers...... within the Agency. We have had rather complete access to the curivities of the Intelligence Component, but the nature of these activities and the lack of complete access to internal review programs and reports has dignificantly limited our effectiveness in this area.

In undertaking to make reviews at the Contral Intelligence Agency, we recognized that the nature of the activities of this Agency procented problems on sufficient breach of coverage and review of detail
for the purpose of reaching sound conclusions. We have need every
effort to breaden our review of the activities of the Agency within
the limitations which were pleased on us, and we wish to assure you
that our conclusion that we could not effectively accomplish any
worthobile audit objectives at CIA on a continuing basis was reached
only after considering all the factors as we saw them.

To obtain the maximum effectiveness of a General Accounting Office audit of CIA activities, it would be noreseasy for our audit chaff to have nearly complete access to CIA activities. However, we believe it to be possible to perform reaconably comprehensive reviews of CIA activities if we were permitted complete access to the administrative activities, such as financial, procurement, property, and personnel
